Update PS Criticality

This is the one page entry form for PS Criticality update. Here, Polling Station wise Criticality Points are displayed in each row. Each column stands for one particular criticality point.

One has to check the Yes/No checkbox under each column, if that particular criticality point applies to that Polling Station.

Here one can also capture information on No. of Vulnerable Hamlets, Name of Hamlets and Political Input from recognized political party on a Particular Polling Station

Non CAPF Measures

Here one can allot Non-CAPF measures and see total resources requirement.

The Polling Stations are displayed in the descending order of criticality. Along with Polling Station Name, building, PS No., PSL No., 4G Connectivity and Criticality Point, Police Station, and Police District are shown. The result is filterable by AC-name, NON-CAPF Measure taken and Criticality Points.

Here one can allot Polling Station wise following non-CAPF measure:

1. Live casting
2. Micro Observer
3. CCTV
4. Videography

This interface is useful to ensure optimum utilization of available resources as the report also indicates total premises covered by combined effect of different non-CAPF measures.

RECORD STATISTICS

Days in use - 4th March –26th April

A hand in a white glove pointing forward, overlaid with a semi-transparent blue rectangle. The background is a blurred image of a person in a suit.

USER **ROLE:-**

It is the synopsis report on how many users use the software and what their roles were.

USER ROLE

01

OC LAW & ORDER :-

He monitored CBM and resource utilization. He also managed force deployment in each AC through this software.

02

OC -IT :-

He monitored resource utilization in areas such as CCTV, webcasting, and micro observers.

03

OC AMF :-

He monitored all AMF facilities.

04

SDO :-

They monitored all election-related activities in their assigned AC.

05

DIO(NIC):-

He tagged the sector officer, assistant sector officer, and other officers in each AC. He also monitored all the election-related activities.

USER ROLE

06

BDO :-

They entered all CBM activities and also monitored election-related activities in their tagged AC.

07

ARO :-

They monitored all election-related activities in their assigned AC.

08

RO:-

He monitored all election-related activities.

**ADM(G), ADM (LR),
ADM(EDU) :-**

They monitored all the election-related activities.

09

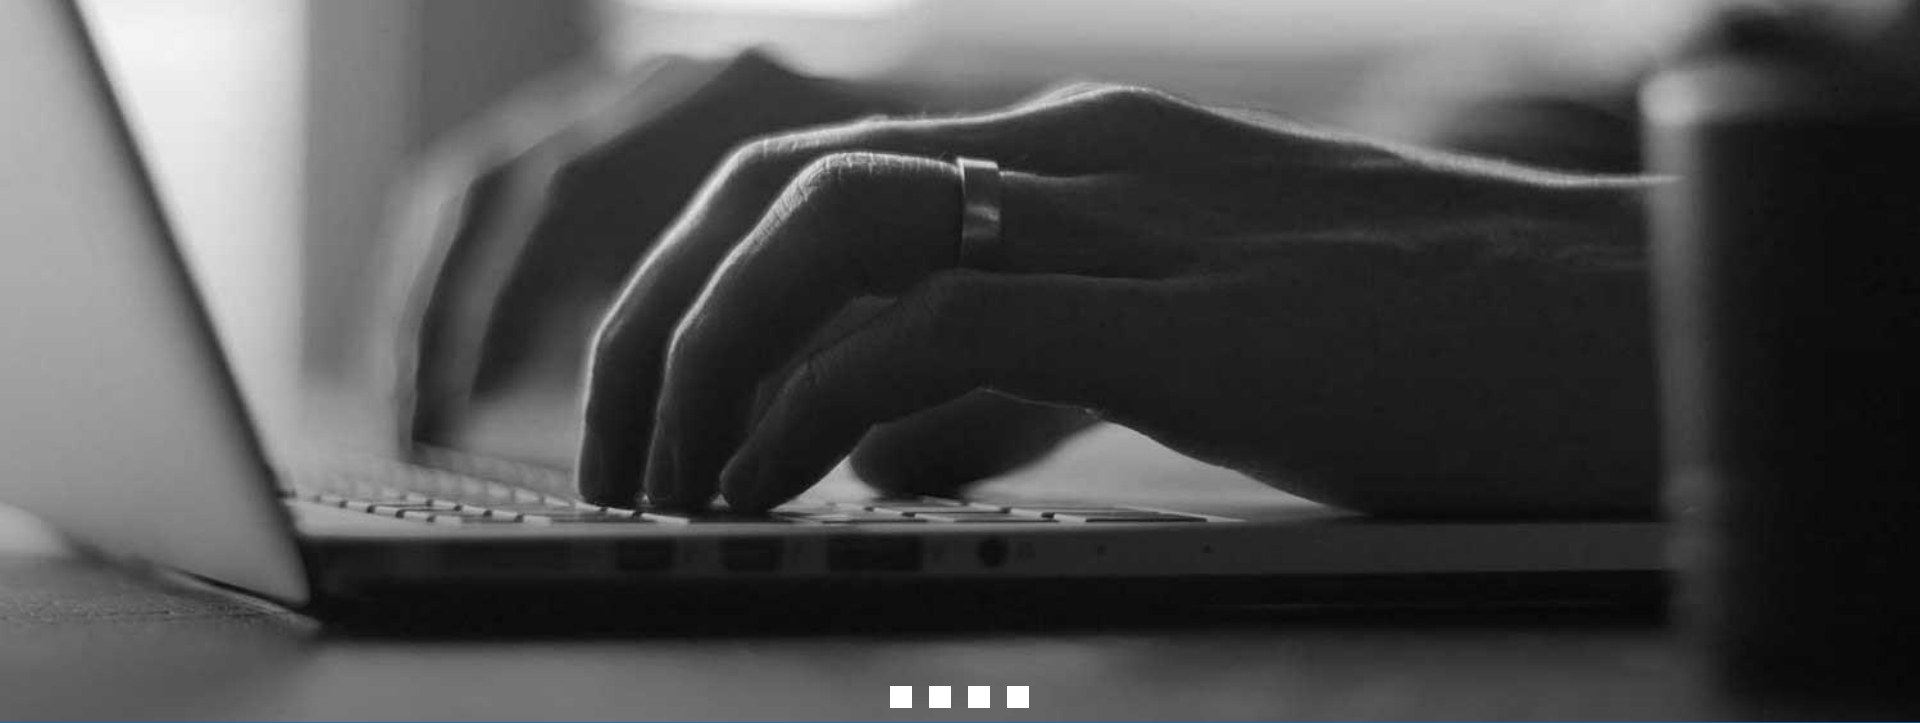

Poll Day Communication:-

All the control room personnel used this software through a QR code.

FURTHER IMPROVEMENT / ENHANCEMENT SCOPES

- ❖ CBM:-The CBM entry should be done by each police station, and it should be monitored by the police nodal officer.
- ❖ Poll Day Communication:-Poll day communication should be shared with all polling personnel and the public, with restrictions
- ❖ There should be one report for vulnerable hamlets and intermediaries.

THANK YOU
